ALEXANDER HALES.

**H**is Irrefragable Piece of Learning was borne in *England*, in a place called *Hales* in *Norfolke*; where having had liberall and free education bestowed on him by his friends, he wholly addicted himselfe to literature: it seemes hee had not onely an excellent wit, but as forward a will to study; for he proved famous in a short time, which argues, that he was wondrous painfull in his studies, and so gained the height of learning by his indefatigable care, and labour: And although *England* bred him, yet hee travailed into other Countries, and was as famous abroad as hee was at home: for as it is testified
